WHY DOES YOUR PUPPY NEED PREVENTIVE CARE?

Puppies need frequent veterinary care in their first year of life to ensure maximum health. Our puppy wellness plan saves you money on the total cost of necessary preventive care and treatments. Best of all, this plan features budget-friendly monthly payments - making it easy to manage your puppy's healthcare costs.

Illness is more common than you think

Puppies are highly susceptible to diseases because their immune systems aren't yet fully developed. It's important to vaccinate and deworm your puppy on a regular schedule in order to provide maximum protection against contagious diseases.

Growing bones need special care

Puppies seem to get bigger right before our eyes. Such rapid growth can come with its own set of problems. No matter what their breed, puppies need to be examined frequently in order to make sure their growth and development is on the right track.

Prevention is the key to better health

Preventive care can help set the foundation for a lifetime of good health, so you and your puppy can spend more quality years together. It's essential for detecting diseases early on, before they become more serious - and more expensive.

WHY DOES YOUR DOG NEED PREVENTIVE CARE?

Regular preventive care is essential for your adult dog's continued health. Our wellness plan saves you money on the total cost of recommended preventive care and treatments. Best of all, this plan features budget-friendly monthly payments - making it easy to manage your dog's healthcare costs.

Vaccinations help healthy dogs stay healthy

Your veterinarian will recommend the vaccination protocol that is most appropriate for your dog based on lifestyle, breed and other important factors.

Diseases can creep up quickly and quietly

Dogs age much more rapidly than we do. So even if your dog looks perfectly healthy, illness and disease could be lurking undetected. Physical exams and diagnostic tests are crucial for finding problems not visible to the naked eye.

Prevention is the key to better health

Preventive care can improve your adult dog's quality of life and help add more healthy years. It's essential for detecting diseases early on, before they become more serious - and more expensive.

Did you know that by the age of three most pets already have signs of periodontal disease?

Regular preventive care is essential for your dog's continued health. Our wellness plan saves you money on the total cost of recommended preventive care and treatments. Best of all, this plan features budget-friendly monthly payments - making it easy to manage your dog's healthcare costs.

Dental Health is Important

Almost every dog will develop some degree of dental disease in their lifetime. In fact, by the age of three most pets already have signs of periodontal disease. Starting early and providing regular dental care is important.

The Unseen Harm

While bad breath and yellow teeth are some of the obvious signs, poor dental health results in chronic pain for your pet and can lead to kidney, liver and heart disease. Regular dental cleanings and evaluations are an important step to help your pet lead a healthy and happy life.

Prevention is the key to better health

Preventive care can improve your dog's quality of life and help add more healthy years. It's essential for detecting diseases early on, before they become more serious - and more expensive.

WHY DOES YOUR SENIOR DOG NEED PREVENTIVE CARE?

Senior dogs need regular veterinary care to ensure optimal health and quality of life. Our wellness plan saves you money on the total cost of recommended preventive care and treatments. Best of all, this plan features budget-friendly monthly payments - making it easy to manage your dog's healthcare costs.

Dogs age a lot faster than we do

The age at which your dog is considered "senior" depends on breed and size. Senior dogs are at greater risk for heart disease, diabetes, arthritis, cancer and many other age-related problems.

Disease can creep up quickly and quietly

Aging means more than just gray muzzles and longer naps - illness and disease could be lurking undetected in your senior dog. Physical exams and diagnostic tests are crucial for finding problems not visible to the naked eye.

Prevention is the key to better health

Thanks to advances in veterinary medicine, pets are living longer, healthier lives than ever before. Preventive care can improve your senior dog's quality of life and help you enjoy more healthy years together.

WHY DOES YOUR KITTEN NEED PREVENTIVE CARE?

Kittens need frequent veterinary care in their first year of life to ensure maximum health. Our kitten wellness plan saves you money on the total cost of necessary preventive care and treatments. Best of all, this plan features budget-friendly monthly payments - making it easy to manage your kitten's healthcare costs.

Illness is more common than you think

Kittens are highly susceptible to diseases because their immune systems aren't yet fully developed. It's important to vaccinate and deworm your kitten on a regular schedule in order to provide maximum protection against contagious diseases.

Growing kittens need special care

Playful as they are, kittens are actually quite delicate and can suffer from a number of health problems in their first year. They need to be examined frequently to make sure their growth and development is on the right track.

Prevention is the key to better health

Preventive care can help set the foundation for a lifetime of good health, so you and your kitten can spend more quality years together. It's essential for detecting diseases early on, before they become more serious - and more expensive.
