

## Aftercare Options

We understand that choosing the right aftercare for your beloved pet is a deeply personal decision, and we want to provide you with options that resonate with your feelings and preferences.

During your appointment, our compassionate team member will take the time to discuss the available aftercare options, including communal cremation and individual cremation. We recognize that this decision is a sensitive one, and our goal is to provide clarity about these choices and their associated costs.

In addition to the cremation services, we collaborate with Gateway Pet Memorial to offer various memorial products. These include meaningful keepsakes like paw print impressions, locks of hair, or jewelry items that serve as lasting tributes to your cherished companion. If you have a specific request or would like to explore these options further, please don't

hesitate to share your thoughts with our team member. We are here to support you in creating a meaningful and personalized farewell for your pet. Your wishes matter and we are dedicated to ensuring that this aspect of the process is as heartfelt and comforting as possible during this difficult time.
